

Roncelli Plastics & C-17 III

A Boeing C-17 Globemaster III In Action.

"The Globemaster III, now in its 15th year of service, continues to be recognized as the backbone of international airlift missions, supporting numerous contingency, humanitarian relief, and peacekeeping efforts around the world."

About The Boeing C-17 Globemaster III

A high-wing, four-engine, T-tailed aircraft with a rear-loading ramp, the C-17 can carry large combat equipment and troops or humanitarian aid across international distances directly to small austere airfields anywhere in the world. With a payload of up to 170,000 pounds, the C-17 can take off from a 7,600-foot airfield, fly 2,400 nautical miles, and land in 3,000 feet or less.

There are 192 operational C-17s worldwide -- 178 with the U.S. Air Force; six with the Royal Air Force (UK); four with the Royal Australian Air Force, and four with the Canadian Forces. Boeing received a contract in July to provide the C-17 to Qatar, with deliveries starting in late summer 2009.

Roncelli Plastics' Involvement

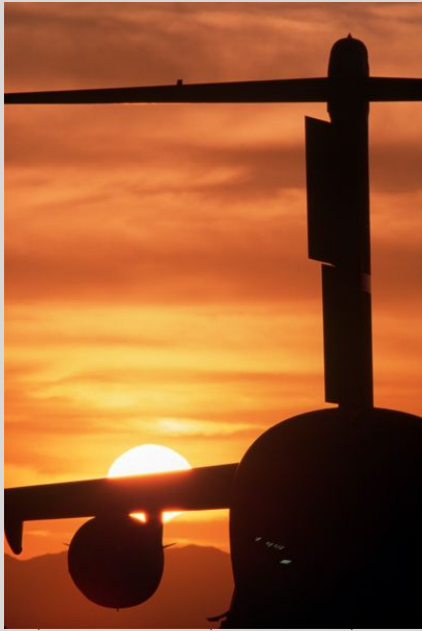

For over a decade Roncelli Plastics has had the privilege of working with Boeing Integrated Defense Systems on their C-17 Globemaster III Cargo Lifter. Roncelli currently produces over 500 different components for C-17 sites production and maintenance sites in Long Beach, CA, St. Louis, MO and Macon, GA.

Roncelli has maintained a Boeing Silver Level Supplier rating and is a member of Boeing's Preferred Supplier Inspection Delegation.

Roncelli has also been honored by Boeing IDS as Small Business of the Year.

In March, Roncelli President Riley K. Cole and BDE Christopher R. Cole participated in Boeing's annual Supplier Washington D.C. fly out. During their time in the Capital they met with staff members from the offices of Sen. Barbara Boxer (D CA), Sen. Dianne Feinstein (D CA) and Rep. David Drier (R CA) in order to show the local impact of C-17. In September, the USAF was authorized to buy six (6)

C-17 News

October 8 -- Dover Air Force Base, Delaware, received its 13th C-17 Globemaster III airlifter during a ceremony at Boeing's Long Beach production facility. Named "The Spirit of Delaware," the advanced airlifter was piloted to Dover AFB by Gen. Arthur Lichte, commander, U.S. Air Force Air Mobility Command, Scott AFB.

October 1 - Boeing announced that an international consortium of 10 NATO members, joined by Partnership for Peace nations Sweden and Finland, signed a Memorandum of Understanding (MOU) on Sept. 24 to acquire three Boeing C-17 Globemaster III long-range cargo jets. The agreement sets the stage for NATO's first major defense purchase in 30 years.

September 24 - A House-Senate conference committee passed a \$487.7 billion defense

appropriations bill for fiscal year 2009. The bill authorizes the U.S. Air Force to spend \$2.1 billion for six C-17s, but did not include funding.

August 13-14 -- Two U.S. Air Force C-17 Globemasters departed Ramstein Air Base, Germany, and landed at Tbilisi International Airport, delivering \$1 million in humanitarian aid to the people of the Republic of Georgia. The airlifters carried medicine, clothing, sleeping bags, cots and other essential items.

July 21, 2008 -- Boeing and the government of Qatar signed an agreement for the purchase of the C-17 Globemaster III airlifter to provide new strategic-airlift mobility capabilities for the Qatar Armed Forces (QAF). Qatar will sign a Foreign Military Sales agreement for contractor logistics support with the U.S. Air Force.

About Roncelli Plastics

Since 1969, Roncelli Plastics has specialized in CNC machining, die cutting/stamping, fabrication, and mechanical assembly of plastic and non-metallic components.

Our highly experienced staff of machinists, quality personnel, and supervisors are dedicated to delivering the best quality plastic and non-metallic components in the industry.

Finished components are delivered to some of the largest and most well known organizations in the world including Honeywell, Boeing, Beckman, Lam Research, NASA, California Institute of Technology as well as hundreds of other companies and organizations.

Roncelli Plastics is located in Monrovia, CA and is a Certified Veteran Owned Small Business.
